

ALABAMA MEDICAID AGENCY

PREFERRED DRUG LIST BY THERAPEUTIC CATEGORY

As a result of legislation passed by the Alabama State Legislature in June 2003, the Alabama Medicaid Agency will use a mandatory Preferred Drug List, effective October 1, 2003. Brand preferred drugs, generics (with the exception of omeprazole) and over-the-counter (OTC) drugs covered by Medicaid will be available without prior approval. If a non-preferred drug is ordered, the practitioner will need to obtain prior authorization (PA). If approval is given to dispense the non-preferred drug, an authorization number will be provided. Antipsychotic and HIV/AIDS drugs are exempted from the new requirements.

Below is a list of brand preferred products on the PDL. The drug name denotes all dosage forms and strengths unless noted. An asterisk (*) denotes a generic available in at least one dosage form or strength. All covered OTC drugs and generic products, with the exception of generic omeprazole, are considered preferred. For a more complete list including non-preferred brands and more information concerning the PDL, please visit our website at www.medicaid.state.al.us.

Allergy Agents

Intranasal Corticosteroids

Flonase Nasonex
Nasarel
All covered generics and OTCs

Anti-infective Agents

Amebicides

All covered generics and OTCs

Aminoglycosides

All covered generics and OTCs
